

Home Safe: Peace of Mind for Your First 24 Hours at Home from the Hospital or Rehab

You have been in the hospital or in rehab and now you are going home. Let EasyLiving make your transition home easy on you and your loved ones and help reduce the likelihood of re-admission.

The Centers for Medicare and Medicaid Services (CMS) reports that 75% of re-admissions are preventable with a little non-medical home care help.

We will:

- ***Meet you at the hospital or rehabilitation facility and help bring your belongings and equipment to the car***
- ***Provide transportation and assistance to home in a private car***
- ***Help you get settled comfortably at home and unpack and put away your belongings***
- ***Pick up prescriptions and other supplies***
- ***Check the refrigerator for spoiled food***
- ***Make the bed with clean linens***

Once you are home, we will stay with you for the first 24 hours to be sure you are safe and well taken care of during your transition. If you will be receiving medical or therapy services, most likely they won't start for a day or so.

We will:

- ***Help you with showering and/or toileting, if needed***
- ***Prepare your meals to ensure you are following doctors' orders & regaining strength***
- ***Remind and assist you with your medication & other orders***
- ***Do light housekeeping to freshen up your home***
- ***Do laundry, fold and put things away***
- ***Go to the grocery store and be sure you have what you need on hand***

We provide non-medical support and “fill the gap” before Medicare companies arrive.

EasyLiving will make your life easier. Should you desire additional non-medical services, EasyLiving is here to help as well and we can customize a care plan around your needs.
